Round table of aviation experts in NSB

On Monday 17th May National Security Bureau hosted a meeting on the security of aircrafts carrying VIPs. It was the third meeting of aviation experts organised by Minister Stanisław Koziej in relation to the above subject. Several military and civil aviation experts were invited to participate in the discussion.

Meetings organised by the Head of NSB are one of the elements aimed at completing the order given by the Speaker of the Sejm Bronisław Komorowski who is acting President.

The purpose of works carried by the experts is a list of references concerning security enhancement of senior state officials carried by aircrafts. It will be presented during the first meeting of the National Security Council.

Participants of NSB's meeting included:

- › Retired Lieutenant-General Jerzy GOTOWAŁA, PhD
- › Retired Lieutenant-General Andrzej DULĘBA
- › Retired Lieutenant-General Stanisław TARGOSZ
- › Retired Lieutenant-General Ryszard OLSZEWSKI
- › Retired Brigadier-General Roman HARMOZA
- › Reserve col. Piotr ŁUKASZEWICZ
- › Reserve col. pilot Tomasz PIETRZAK
- › Ryszard SZCZEPANIK, PhD
- › Jacek GOSZCZYŃSKI, PhD
- › Tomasz HYPKI
- › Krzysztof ZALEWSKI
- › Wojciech ŁUCZAK
- › Grzegorz SOBCZAK
- › Jakub BENKE

Minister Koziej insisted that the formula of „round table of aviation experts” would provide an opportunity for exchanging different views on the security of aircraft transportation for VIPs.

Experts focused on three main areas:

- › Rules that would apply to using aircrafts by VIPs, which would include among others, dividing VIPs into

different groups;

- › Security of air transport organised by the Chancellery of President, Prime Minister, Sejm and Senat as well as Ministry of National Defence – i.e. analysis of cooperation and specification of recommendations within this scope.
- › Safe completion of VIP transportation – type of state body that would be responsible for completing this type of transport, requirements and conditions for completing the task of air transport conducted by military aviation and security requirements during the transportation of high ranking officials carried by commercial aircrafts.
