Polish-French strategic consensus. Head of BBN visit to Paris

On 18 march 2013, Head of BBN Minister Stanisław Koziej visited France.

The main objective of the visit was exchange of opinions in the area of European security policy before the European Council meeting in December 2013.

France supported the Polish proposal to start work on the amendment of the European Security Strategy. It would be the basis for the development of the Common Security and Defence Policy of the European Union.

The Secretary General for Defence and National Security Francis Delon invited Minister S. Koziej to participate in the meeting of the secretaries of the security councils of the Weimar Triangle, which will be held in May this year in Paris.
