## Teleconference between European leaders, US President and Ukrainian President

---

**President of the Republic of Poland Karol Nawrocki participated in a teleconference between European leaders, US President Donald Trump, and Ukrainian President Volodymyr Zelensky.**

They discussed the status of peace talks aimed at ending the war in Ukraine caused by Russia. President Karol Nawrocki emphasized President Trump's strong commitment to the peace process and thanked him for today's conversation. He noted that since the beginning of Russia's full-scale aggression against Ukraine, the Rzeszów-Jasionka airport has served as a hub for over 90% of aid delivered to Ukraine. Therefore, Poland's position at the time of signing the peace agreement will be crucial.

Today's conversation shows that any arrangements concerning peace and security in the region must be made among all interested parties. The determination of the American side and the unity of the European countries' position give a real chance to end the war caused by the Russian Federation.
